

—GET IT FROM THE FACTORY—

**SEND NO MONEY**

Another example of what it means to get your Home Furnishings direct from the factory. We want you to see this magnificent Turkish Rocker; we want you to enjoy its restful comfort before paying us a cent; we want you to compare it with Rockers, either in leather or imitation, that retail in the stores for \$12 to \$20. Then, if you are not thoroughly convinced that you have saved one-fourth to one-third by getting the Rocker direct from the factory, you may return it at our expense any time within thirty days from the day it left the factory. If, on the other hand, you are satisfied you have secured the greatest bargain in high-grade upholstered furniture you ever saw or heard of, send us a dollar a month till the special get-acquainted price of \$7.65 is paid. Not a penny down till you have had this incomparable factory leader in your home long enough to try it out to your satisfaction.

Extra large and double extra comfortable. The seat is of steel spring construction, twenty inches wide and twenty inches deep. The back is fully upholstered with the attractive diamond tuft, held in place by non-pull-out buttons, and the edges are prettily ruffled. The frame is made of specially selected wood. A substantially built Rocker in every respect, and comes from the hands of the master craftsmen direct to your home. You will note that aside from the beautifully finished hardwood runners, no wood is exposed. The covering is the genuine black Veleco, equal in appearance and superior in wear-resisting qualities to much of the leather being used for this purpose.

The hardwood runners are finished in the color of fumed oak or mahogany, as you may prefer. Fumed oak will be furnished unless otherwise ordered. Shipping weight, about seventy-five pounds. Shipped either set up or in sections ready to put together. The latter is the better and safer way, as the Rocker is thus protected against rough handling in transit and is guaranteed to reach you in perfect condition. Easily put together in a few minutes. Unless otherwise instructed, the Rocker will be packed in sections, in order that it may reach you safely. Shipment will be made by freight, direct from the Michigan factory to your home. You pay only the trivial transportation charges on arrival and you may return it within thirty days if you are not pleased.

In all large cities we have special delivery service, so that our customers there have no bother in looking after shipments. As soon as the goods arrive they are delivered at once to your home, and you pay only the freight and delivery charges to the driver. Not a cent of the price is payable till thirty days after shipment, and then it is remitted at the rate of only a dollar a month. We have no collectors.

This is a factory leader; we frankly confess it; and we are offering it for the purpose of getting acquainted with you. The offer is open to every reliable house-keeper or her husband in the United States who has not accepted one of our other get-acquainted offers. After we have shipped you this bargain, we expect to retain you as a permanent Quaker Valley customer; but we could not hope to do this if we were not in a position to save you big money on all your purchases of Home Furnishings. From nine great factories we ship direct to the home on the strongest guarantee ever written, namely: a trial of thirty days before you pay us a cent.

So now, sign the coupon and rush it to the mail-box.

**DIRECT TAX FOR BUILDING OF OUR ROADS**

Rather Than a Bond Issue is Advocated by Taxpayer Who Defends County Court.

(By Taxpayer.)

I read in the Telegram an article headed "Simpson Sure to Get Good Roads." Well, let us see what that means to the taxpayers of Simpson district. I will say that I think that seventy-five per cent of the taxpayers of Simpson district are in favor of good roads, either by bond issue or by a direct road tax, provided they know that the expenditure of this money is equally and justly distributed over the district or placed so they will get the benefit in proportion to the amount of tax paid by them.

It seems that there are two sections of the district that need to have their roads improved—the Simpson creek side and the Brushy Fork side.

Those living on the Simpson creek side are interested in the roads leading from Bridgeport in the direction of Grafton, Fairmont and Shiloh.

Those living on the Brushy Fork side are interested in the roads from Brushy Fork to Clarksburg and Bridgeport.

I cannot understand why the Bridgeport people want to tax the whole district to build eighteen miles of roads in and around Bridgeport and give the Brushy Fork citizens and taxpayers only two miles of road. It appeals to me that any man or set of men who presume such an outrage are very unfair in their attempts. This bond issue is not to increase the value of the property of Bridgeport or boom that little city, but it is to give the public better roads where they are most needed.

My dear advocate of better roads in and around Bridgeport, you had better go just a little slow, for there are other people living and paying taxes in Simpson district, who have the backbone to stand up for what they think is just and honest. You will find this out when this bond issue is put to a vote under your present presumption. I see further that the Hon. F. B. Davisson and some other good men of the district were accused of throwing fire into your meeting, recently held at Bridgeport. Mr. Davisson is well known by the citizenry of the district, and we all know him to be a very safe man. Any position he might take upon this matter we certainly would give our best consideration. It would be better for us all if we had a few more F. B. Davissons to "bob" up when things start wrong.

Our county court was also publicly assailed by some of your advocates of "Better Roads for Bridgeport," or by the writer of "Simpson Sure to Get Better Roads."

I am personally acquainted with each member of our honorable county court and know them to be men of high integrity, scrupulously honest and having good judgment. I don't believe any of them could be influenced by even a brother to build a road to his dairy farm.

Let's build our permanent roads by a direct tax. Don't put a mortgage on our farms for our children to pay. Don't keep the next generation nose to the grindstone for the rest of their days. By so doing we will destroy their self-ambition and lower the citizenship of our county. We are living in a prosperous age, we are using up the things God put in the earth for our benefit—coal, oil and gas. When this is gone (and that will be before these bonds are paid) the next generation will have none of these things to resort to, but they will have the bonds to pay. What will happen then? Guess at the rest.

Let me give my Simpson bond advocate a few things to study over so he may get the wheels in his cranium to working.

A mud hole is easier to get out of than it is to get out of debt. A debt is easier to make than it is to pay.

Other people's money is not used as sparingly as if we earned it ourselves. A man that cannot run his own business successfully is not safe to give business advice to others.

If we cannot pay as we go we had better stay at home. You will hear from us again.

"Yours for Better Roads," but by all means by a direct road tax.

**SPRING DRESS UP MEETING WITH FAVOR**

And It Will Prove a Great Incentive This Spring to the Early Buyers Here.

The announcement of Spring Dress Up in Monday's Telegram is meeting with widespread approval throughout the city and the merchants who first suggested the idea are being praised on every side. Owing to the fact that Easter, which is usually the occasion of putting on new spring apparel, is so late this year, the observance of Spring Dress Up will prove a great and necessary incentive to early buying.
